

LGGS will become one of 180 Flagship Schools and Communities across England.

We are very pleased to have been selected by the Food for Life Partnership to become one of 180 Flagship Schools and Communities across England that will be recognised as **national leaders on food quality and food education**. We are the only Secondary School in Lancashire to be chosen and one of six schools selected in the North West region this time round.

Many thanks to the pupils in our Eco-group and Food Focus group who gave presentations about their work in school which really impressed the selectors. Thank you also to Mrs Workman and Mrs Harwood for all their hard work with the groups.

The Food for Life Partnership will now help us put more fresh, local and organic food on the menu and involve our pupils – and interested parents and community groups – cooking and growing food and visiting local farms.
